

Welcome & Opening Remarks

Zesheng Zong (PyTorch Ambassadors)

Agenda

- PyTorch Foundation
- Ecosystem
- Events
- Promotions

PyTorch Foundation Mission

The PyTorch Foundation exists to **accelerate** the widespread adoption of accessible, high-quality AI technologies by cultivating a robust ecosystem of **open-source, vendor-neutral** projects spanning the entire AI lifecycle.

We are committed to **democratizing** cutting-edge tools, libraries, and frameworks—**empowering** researchers, developers, and organizations of all sizes to **innovate and deploy** AI solutions with confidence.

Associate (16)

PyTorch Ambassador Program

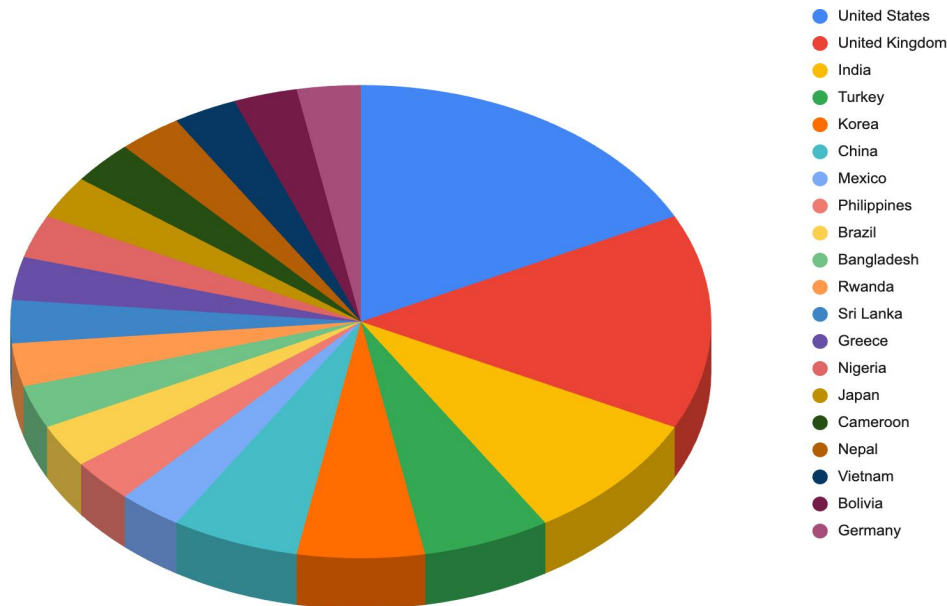

The PyTorch Ambassador Program highlights and supports passionate community leaders who educate, advocate for, and build with PyTorch in meaningful ways.

Ambassadors help grow PyTorch usage around the world by organizing events, creating educational content, mentoring new users, and contributing to the open-source ecosystem.

Global Reach of the 2025 PyTorch Ambassadors

The PyTorch Ambassador Program has welcomed 37 ambassadors!

With ambassadors distributed across **19** countries, **PyTorch** is building global representation across academia and industry.

PyTorch Ecosystem

A large, faint, light purple watermark of the PyTorch logo is visible on the right side of the slide. The logo consists of a stylized 'P' shape formed by two concentric arcs, with a small circle positioned above the upper right part of the 'P'.

PyTorch New Ecosystem Project

FlagGems is a high-performance general operator library implemented in [OpenAI Triton](#). It builds on a collection of backend neutral kernels that aims to accelerate LLM training and inference across diverse hardware platforms.

Kubeflow is the foundation of tools for AI Platforms on Kubernetes.

PyTorch Ecosystem

Slack: [#pytorch-ecosystem-working_group](#)

Voted:

- **LMCache**, <https://github.com/LMCache>
LLM serving engine extension that reduce TTFT and increase throughput
- **DeepInverse**, <https://github.com/deepinv/deepinv>
A PyTorch library for imaging with deep learning
- **Feast**, <https://github.com/feast-dev/feast>
Open source feature store that delivers structured data to AI and LLM applications at scale for training and inference
- **NeuralOperator**, <https://github.com/neuraloperator/neuraloperator>
Learning mapping between function spaces with neural operators

Coming up

- **TensorLy-Torch**, <https://github.com/tensorly/torch>
Deep Tensor Learning with TensorLy and PyTorch

PyTorch Events

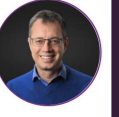

We are
4
weeks out from
PyTorch Conference 2025!

Registration: <https://events.linuxfoundation.org/pytorch-conference/register/>

FEATURED SPEAKERS

 Percy Liang Associate Professor of Computer Science 	 Nathan Lambert Senior Research Scientist 	 Animashree (Anima) Anandkumar Bren Professor of Computing and Mathematical Sciences 	 Jim Fan Director & Distinguished Research Scientist 	 Dawn Song Professor 	 Sergey Levine Associate Professor 	 Ion Stoica Professor of Computer Science, UC Berkeley, Director of Sky Computing Lab, and Co-founder of Anyplace, Datahicks, and Conviva Networks 	 Dr. Sharon Zhou Vice President of Artificial Intelligence 	 Noam Brown Research Scientist 	 Dylan Patel Founder, CEO, and Chief Analyst 	 Chip Huyen VP of AI & OSS 	 Mark Saroufim Software Engineer 
 Eric P. Xing President, MBZUAI; Professor of Computer Science, Carnegie Mellon University; and Chief Scientist, GenBio AI 	 Sarah Guo Investor, Founder 	 Jerry Liu CEO & Co-founder 	 Simon Mo Lead, vLLM & PhD Student 	 Noam Brown Research Scientist 	 Dylan Patel Founder, CEO, and Chief Analyst 	 Chip Huyen VP of AI & OSS 	 Mark Saroufim Software Engineer 	 Daniel Han Co-founder 	 Robert Nishihara Co-founder 	 Adam Jones Member of Technical Staff 	 Vijoy Pandey VP & CTO 

Conference schedule: <https://events.linuxfoundation.org/pytorch-conference/program/schedule>

Open Source AI Week

Monday, October 20	Intuit Open Source Meetup: Open Source & AI
Tuesday, October 21	Measuring Intelligence Day Open Agent Summit Elastic{ON} AI AI Infra Summit PyTorch Conference Startup Showcase AI Infra & Open-Source Models Meetup
Wednesday, October 22	PyTorch Conference
Thursday, October 23	PyTorch Conference PyLadies SF at AutoKittch Dendritic AI Hackathon
Friday, October 24	dAGI Summit GPU MODE IRL Hackathon

Be Part of the Week — Host Your Own Event!

Complete this [form](https://linuxfoundation.research.net/r/FD6JMH5) (<https://linuxfoundation.research.net/r/FD6JMH5>) to be added to the [Open Source AI Week website](#).

Training and Certification

[PyTorch Associate Training Course](#) which will be offered in-person at the PyTorch Conference on **Tuesday, October 21, 2025**. Including:

1. PyTorch Fundamentals
2. Hardware Acceleration
3. Data Handling
4. Model Development
5. Core Modules
6. Advanced Features
7. Performance Optimization
8. Specialized Applications
9. Certification Readiness

PyTorch Contributor Awards – 2025 Categories

This year, 11 award categories will be presented to recognize contributors across the PyTorch community.

- **PyTorch Superhero** – Excellence in all aspects of community contributions
- **PyTorchbearer** – Excellence in long-term contributions across all modalities
- **PyTorch Pace-Setter** – Excellence in high-level activity and contributions
- **PyTorch Newcomer** – Excellence in new contributions
- **PyTorch Ambassador** – Excellence in bringing new users to the community
- **PyTorch Review Powerhouse** – Excellence in code review

- **PyTorch Problem-Solver** – Excellence in uncovering or resolving bugs
- **PyTorch Innovator** – Excellence in innovative new features or approaches
- **PyTorch Trail Blazer** – Excellence in documentation and knowledge sharing
- **PyTorch Rock-Turner** – Excellence in submitting interesting issues or bugs
- **PyTorch Ecosystem Champion** – Excellence in strengthening the broader ecosystem
